

A green TRIOBALÉ compressor machine is shown from a rear three-quarter view, parked in a grassy field. The machine has a large roll of white plastic film mounted on its frame. In the background, several white silage rolls are visible in a field, with a line of tall pine trees under a cloudy sky.

# Innovative mantle film for increased silage quality

**TRIOBALE<sup>®</sup>**  
compressor

Takes your silage to the next level

# TRIOBALE<sup>®</sup> compressor

## TAKES YOUR SILAGE TO THE NEXT LEVEL

- 10-30% higher output per reel compared to other brands - lower cost per bale!
- Patented properties – Enables optimal efficiency and tear resistance on bale!
- Increases the silage quality according to independent tests\*

\*Test by Swedish University of Agricultural Sciences (SLU) 2015

### PRODUCT DATA

Dimensions	Reels/pallet	Colour	Stretch in machine*	Specific benefits
1280 mm x 0.013 mm x 3000 m	16	Tinted white	5-13%	Perfect for stationary machines – many bales between reel changes. 25-30% increased output compared to other brands.
1280 mm x 0.016 mm x 2400 m	16	Tinted white	15-20%	Perfect combination for mobile and stationary machines for edge to edge. 25% increased output compared to other brands.
1400 mm x 0.016 mm x 2200 m 	16	Tinted white	18-30%	Superior product for mobile balers for professional use and possibility to cover edge. 20% increased output compared to other brands.
1400 mm x 0.016 mm x 4500 m	9	Tinted white	18-30%	Highest efficiency with minimum downtime. For applicable machines please visit <a href="http://triowrap.com">triowrap.com</a>
1400 mm x 0.020 mm x 1800 m 	16	Tinted white	25-35%	Heavy duty product for mobile balers for all type of users with possibility to cover edge. 10% increased output compared to other brands.

\*Stretch levels for each product are stated on the reel label

 Available as loop, containing 30% PCR, RecyClass certified

TrioBaleCompressor has been tested by the Swedish University of Agricultural Sciences (SLU) which proved better shaped bales, better airtightness and less mould, when compared to bales with net binding.

## MORE SUSTAINABILITY? YES PLEASE!

- Reduce your feed losses as much as possible – it has been proven that TrioBaleCompressor increases the silage quality significantly
- Be efficient in your silage making – TrioBaleCompressor offers the highest output in bales per reel in the market, in addition, by choosing our 16μ product you reduce your material usage by 20% compared to 20μ.
- Try our TrioBaleCompressor loop option, based on 30% PCR (post-consumer recycled material), which decreases the carbon footprint by approx. 50%!\*\*
- Collect and sort plastic waste after usage for recycling – TrioBaleCompressor is fully recyclable, including the packaging and can be recycled in the same fraction as the bale wrap!

\*\* LCA modeled 2022 in SimaPro using data from the ecoinvent inventory database. Reduction in impact when comparing TrioBaleCompressor loop 16μ to TrioBaleCompressor virgin 20μ.

# WHY USE MANTEL FILM

- Mantle film and bale wrap can be sorted in the same recycling fraction
- Easier to open for efficient use with an automatic bale opener
- Easier to open frozen silage bales during winter
- Compact bales that are easier to handle with bale handler
- Less risk of puncturing film layers during wrapping
- Protection of the mantle side reduces mould

# TRIOBALECOMPRESSOR & TRIOWRAP PLUS

## Film on Film with our PlusTech™ products

PlusTech is our name for a number of technology innovations that combine a special blend of raw materials, unique manufacturing processes and over 50 years of knowledge and silage expertise in different processes to achieve products with improved efficiency for end-users.

- Less wrinkles - perfect seal of the bales with high silage quality
- Perfect bale shape for easy bale handling and storage
- Less material usage per bale – Saving both cost and environment

# ONE PIECE PACKAGING CONCEPT

## Unique patented sleeve packaging

- Edge protection for safe reel handling
- 100 % recyclable plastic – can be recycled with bale wrap
- Unwinding direction on packaging for convenient loading
- One piece packaging for efficient reel changes
- Stretch levels of product on the label

**EASY HANDLING**

**COVER EDGE  
OR EDGE TO EDGE**

**HIGH SILAGE  
QUALITY**

# Efficient & sustainable silage making

We know the hazards and challenges of the harvest season and we can support you with our many years of experience. If you need help, our silage experts and technical support team is there to support you to improve your yield, efficiency and sustainability in your silage making - all over the world.
